

Durante Global

## Collaboration Agreement

*This contract regulates future commercial relations between Durante Global and the collaborating party.*

*The contract is agreed between:*

Agency or Person : \_\_\_\_\_

Address : \_\_\_\_\_

Representative : \_\_\_\_\_

City : \_\_\_\_\_

The collaborating party upon completion of this contract can contact Durante Global and instruct one of our agents to upload your properties to our site for free, unlike other sites.

The Durante Global network will then start to market the said agents' properties worldwide by many forms to quickly obtain interested parties.

Once the lead is generated Durante Global agents will vet the interested party then refer to the needed collaborating party who has access to the property.

Once the referral of that client has commenced with the agency, Durante Global will give the agency exclusive control over that lead for a three-month period. If nothing has materialized after the three-month period, then that lead would then be given to other agencies and worked by Durante Global agents.

Upon a successful house sell from a lead generated by Durante Global the parties agree to share the commission equally. The lead will be registered by email to the collaborating agency by Durante Global. No branded advertising is allowed on Durante Global.

The commissions will be paid not only if the said property is purchased but if the registered client purchases any property with the said agency.

The commission must be paid fully to Durante Global once the agency has received the total commission from the selling party.

Each party bears their own costs not applied to either party. Both parties expressly agree to the same conditions will be applicable to the other party. In this case Durante Global the one bringing the clients and the collaborating agency providing the properties.

In agreement with the conditions here established, we kindly ask you to return this contract signed by the legal representative of the agency.
